	2 inches in diameter were reported down.				
Several tree branches that were 1 to BUREAU COUNTY LA MOILLE [4]			0	Thunderstorm Wind (EG 50 kt)	

A three inch diameter tree was split in half due to a thunderstorm wind gust.

A disturbance moving northeastward across the region led to the development of a severe squall line with bowing segments that moved from eastern lowa into northwest Illinois during the early evening hours. This line of thunderstorms produced widespread wind damage along and to the north of Interstate 80. There was an EF-1 tornado near Atkinson in Henry County and an EF-0 near Van Orin in Bureau County.

MCDONOUGH COUNTY 0.9 SW PRAIRIE CITY [40.61, -90.46]		
06/25/13 07:50 CST	0	Hail (1.00 in)
06/25/13 07:50 CST	0	Source: Public

Hail varying in size from a half inch to an inch diameter was reported.

The active weather continued as another disturbance traversing the region produced showers and thunderstorms during the morning hours of the 25th. One of these thunderstorms became severe over McDonough County producing quarter sized hail.

MERCER COUNTY --- NEW BOSTON [41.17, -91.00], 1.0 W KEITHSBURG [41.10, -90.95], 0.4 ENE KEITHSBURG [41.10, -90.92], 1.2 ENE NEW BOSTON [41.17, -90.98]

06/27/13 23:00 CST 0 Flood (due to Heavy Rain) n 06/30/13 23:59 CST Source: River/Stream Gage

Heavy rains farther to the north during the last two of June led to rises on the Mississippi River to above major flood stage at both New Boston and Keithsburg. Both New Boston and Keithsburg rose above their major flood stages of 18.5 feet and 17 feet respectively during the early morning hours of the 28th and remained there through the end of the month.

County ranged from 1 to 3 inches.

A disturbance moving eastward across lowa and into Illinois focused several rounds of thunderstorms to the north of a warm front that stretched south of Interstate 80. Storms affected Cedar, Linn, Johnson, and Scott Counties beginning in the early morning hours of June 24th and continued into the late morning. The heaviest rains fell across Cedar County where over 6 inches of rain was reported. Widespread 1 to 3 inches of rain were reported in other locations.

A trained spotter reported that debris was being lofted by winds along Highway 67 between Folletts and Princeton.

A disturbance moving northeastward from northern Missouri into eastern lowa led to the development of a severe squall line with bowing segments that produced widespread wind damage across eastern lowa north of a line from Jefferson to Louisa County. An EF-1 tornado touched down in the city of Muscatine with damage in the business district and one fatality.
